

Residents' Session

Transition to **Community Anesthesia** Practice

Sun., Jun. 17, 2018

Alex Yeung, BAsC, MASc, MD, FRCPC

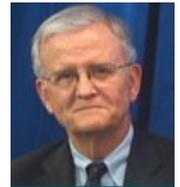

Your Work-Life Priorities?

(Academic Vs. Community Vs. Other)

* **Research** with leading edge Anesthesia researchers/resources

* **Practice** highly specialized Anesthesia cases

* **Educate** Students/Residents/Fellows

* **Location**

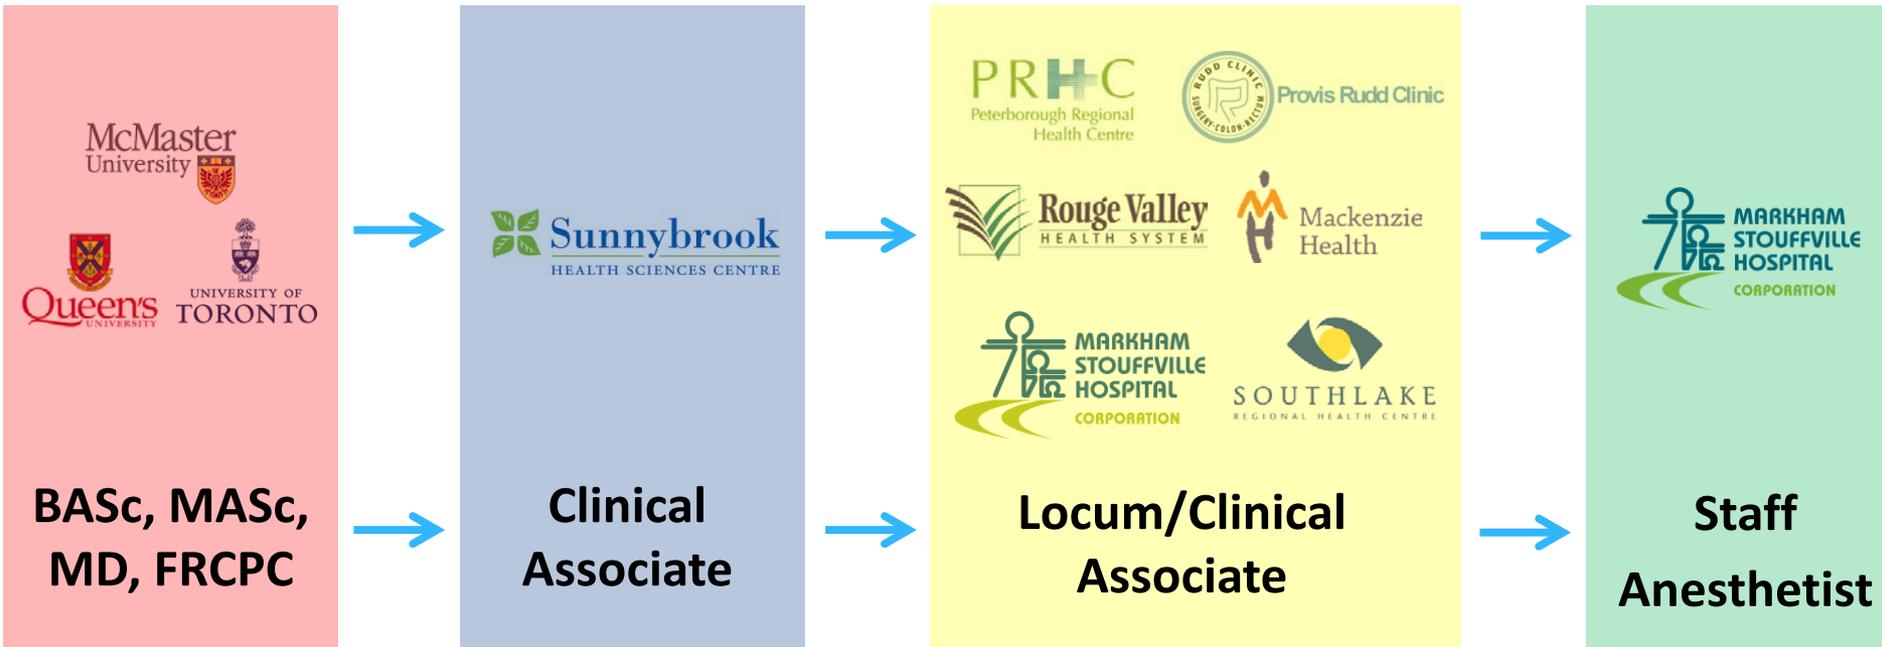

* **Family**

* **Finish at 3:30pm**

My Pathway

Never put all of your eggs into one basket!

My Community Anesthesia Work

(Markham Stouffville Hospital)

- * **Education Coordinator**
- * **Educate students/Paramedics/Residents/RTs/AAs**
- * **Evolving Clinical Cases (c-spine, same-day THR, midwives, etc.)**
- * **Departmental Scheduler**
- * **Entrepreneurial Work**
- * **Family +/- Work**

PEARLS

- * **Varied experience is advantageous: GET INVOLVED!**
- * **There is no one path/training/fellowship to a job**
- * **Politics (is everywhere!)**
- * **Academia has ownership of your ideas/patents?**
- * **Buy-in required for a job? (\$, pick list order, less call, etc.)**
- * **Personality and Group-Fit are extremely important... now, 15 y later, 30 y later...**

Qs?

- * **Think of these Ps:**
 - * Type of **Practice**
 - * Type of **People**
 - * Type of **Potential**

Life becomes much better post-residency! =)
