Cardiac Anesthesiologist

Victoria, Vancouver Island, BC

Island Health has an opportunity for a Cardiac Anesthesiologist to join their team. Located in Victoria, British Columbia, the Royal Jubilee Hospital is a 500-bed tertiary care facility and the referral centre for cardiac surgery patients on Vancouver Island. Cardiac cases total approximately 800 per year and consist of on-pump coronary artery bypass surgeries, complex valve surgery, aortic surgery, laser lead extractions, catheter based structural heart procedures, TAVIs, ECMOs, and TEVARs.

You will function as part of a collegial nine-member cardiac anesthesiologist team and your work will involve cardiac and all other surgical specialties offered at this centre. Cardiac anesthesia accounts for about 60% of our practice. The successful applicant must have current experience managing postoperative cardiac surgery patients in the cardiovascular intensive care unit (CVU). We recommend potential applicants work as a locum or include an elective rotation in Victoria during their training.

Other surgical services at Royal Jubilee Hospital include general, thoracic, bariatric, ENT, urology, vascular, orthopedic, ophthalmologic, and plastic surgery. It serves as a teaching centre for the University of British Columbia's medical school and postgraduate medical education and our department is affiliated with both the University of British Columbia and the University of Victoria.

Victoria, British Columbia's scenic Capital, is located on the southern tip of Vancouver Island.
