

## **Anaesthesia Fellowships – Auckland & Nationwide**

### **Fixed-term roles starting February or August 2026**

- Join a leading tertiary teaching hospital in Auckland, Aotearoa New Zealand
- Be part of a national network of anaesthesia fellowships
- Combine purpose-driven work with a lifestyle you'll love

Looking to take the next step in your anaesthesia career — in a country that offers both professional growth and an incredible quality of life?

We're welcoming expressions of interest for **Anaesthesia Fellowships commencing in 2026**, based at one of New Zealand's busiest acute surgical centres in the vibrant, multicultural city of **Auckland**. These roles are part of **Health New Zealand | Te Whatu Ora**, connecting you to further fellowship opportunities and career pathways nationwide.

---

### **About the Fellowship**

This is a **12-month fixed-term position**, designed to bridge the transition to independent consultant (attending) practice.

We offer **10 ANZCA-accredited fellowships each year**, with broad generalist experience and opportunities to focus in areas such as:

- Obstetric Anaesthesia
- Burns and Reconstructive Surgery
- Perioperative Medicine
- Regional Anaesthesia

You'll work across **24 operating theatres over two campuses**, managing a mix of acute surgical lists, elective sessions, and out-of-theatre responsibilities, including:

- Pre-op assessment clinics
  - Post-op reviews
  - Acute pain service support
-

## Who Should Apply

This fellowship is ideal for candidates who are:

- In their **final year of training** (PFY, ST6/7), or
  - Recently completed **FANZCA, CCT (UK), or equivalent**
  - Seeking advanced, hands-on experience in a supportive, high-acuity setting
- 

## About the Department

Our Auckland service is a **tertiary referral centre**, managing some of the country's most complex surgical cases, including:

- Acute spinal and pelvic trauma
- Major burns and maxillofacial injuries
- Complex reconstructive surgery

We are also home to the **National Burns Centre** and support over **7,000 births per year** through our high-risk Obstetrics unit.

In addition to subspecialty focus, you'll gain exposure to:

- Paediatric and neonatal anaesthesia
- Advanced airway management and bronchoscopy
- Perioperative ultrasound (TTE, POCUS)
- Acute pain management

We're known for our collaborative team culture, strong teaching ethos, and commitment to developing well-rounded, confident anaesthetists.

---

## Eligibility Criteria

To apply, you must be eligible for **general or provisional registration** with the **Medical Council of New Zealand (MCNZ)**, and meet one of the following:

- Eligible for **Provisional Fellowship Year (PFY)**
- In **ST6/7** or recently completed **FANZCA/CCT or equivalent**

# Health New Zealand

## Te Whatu Ora

- International applicants are warmly encouraged to apply
