

JOIN DALHOUSIE UNIVERSITY'S THRIVING ANESTHESIA TEAM

The Dalhousie Department of Anesthesia, Pain Management and Perioperative Medicine, located in Nova Scotia, Canada, is seeking an academic **OBSTETRIC ANESTHESIOLOGIST** to join its dynamic and growing team.

We care for patients of the **IWK Health Centre**, Maritime Canada's tertiary referral hospital for women's and obstetrics care. The Women's and Obstetric Anesthesia department consists of a team of 10 Obstetric Fellowship-trained anesthesiologists (plus five anesthesia assistants, one anesthesia technician and two research staff) who provide a full range of labour analgesia and obstetric anesthesia services with 5,000 deliveries each year. In addition, the team serves gynecology and breast health anesthetic needs (2000 surgeries annually).

We are also affiliated with **Nova Scotia Health Authority's Central Zone** and the **QEII Health Science Centre**, Atlantic Canada's largest tertiary/quaternary care facility with 70,000 procedures completed annually. At the QEII, anesthesiologists deliver the full spectrum of general and specialty anesthesia services, perioperative and critical care medicine, and acute and chronic pain management.

As part of our team, you will enjoy a challenging and rewarding career with outstanding clinical and academic opportunities. Plus, you'll be doing so in the vibrant provincial capital of Halifax, where big-city convenience meets small-town charm.

Dalhousie University is an employment equity affirmative action employer. The university encourages applications from qualified aboriginal people, persons with a disability, racially visible persons and women.

The Need

We are looking for a clinician scientist with an established academic track record to help lead our high-impact women's and obstetrics-related research program. The successful candidate will complement and enhance our existing research endeavors and mentor Fellows and junior investigators. Protected time for an established research program and scholarly activities will be provided. Compensation will be according to the department's practice plan.

Qualifications

Requirements include eligibility for Nova Scotia medical licensure and Royal College of Physicians and Surgeons of Canada certification (or equivalent) in anesthesia, subspecialty training in women's and obstetrics anesthesia, research training (CIP, MSc, PhD) and a track record in scholarly research.

How to Apply

Qualified applicants should submit a current CV and a statement outlining their clinical and academic interests. Three letters of reference, two of which are from academic referees, must also be sent under separate cover to Dr. Dolores McKeen (*info below*).

Potential candidates must possess the requisite qualifications. Incomplete applications will not be reviewed. Canadian citizens and permanent residents will be given priority.
